

Functional Area Deliverable - Admin > Option Management screen

Admin users need a screen Admin > Option Management to manage the field "Phase" where Admin users can define the options a user will see when filtering.

Associated Impact:

[ED-1080](#) - Deliverable and template management adding a new deliverable will assign it to a phase.

[ED-1087](#) - In deliverables technical screen user needs to be able to select the phases to display for deliverables to be completed.

- **Purpose:** Enable Admin and FA Admin users to manage the list of **Phases** available for selection in the Deliverables Management module, with the ability to configure them per **Functional Area** (EE, ME, THM).
- **User Roles & Permissions**

Admin & FA Admin	Full access to view, add, edit, activate/inactivate, reorder, and set defaults for phases
Non-Admin/Other users	No access to this screen

- **Navigation:** Admin → Option Management
- **Option List Table:**

Option Name	Displays name of the option, eg. EE-Phase
Values	Displays phases values separated in commas If the values are not fitting in the cell, show 3 dots '...' which indicates it has extended data. When user hover over, the tooltip displays all the values separating with comma ',' Only values which are Active in Edit Option popup will be displayed Default Values to set: EE-Phase: X01, X02, X03, A00, User defined ME-Phase: Mockup release, Tooling release, T2 release, Tf release, RFD release, PPAP, User defined THM-Phase: User defined
Last Modified by	Displays the last modified user email ID
Last Modified	Display last modified Date and time in MM/DD/YYYY HH:MM:SS

Date	AM/PM
Action	Display Edit icon with tool tip. Clicking on Edit icon opens Popup to manage the phases.

Access Control

- Only users with **Admin** or **FA Admin** roles can access Admin → Option Management.
- Non-admin users cannot view or interact with the Option Management screen.{}

Option List Table

- The table displays the following columns:
 - **Option Name** (e.g., EE-Phase)
 - **Values** (comma-separated list of phases)
 - Only values which are Active in Edit Option popup will be displayed
 - If phase values exceed the cell width:
 - Show ellipsis (...)
 - On hover, display full list of values in a tooltip, separated by commas
 - **Last Modified By** (email ID of last editor)
 - **Last Modified Date** (in MM/DD/YYYY HH:MM:SS AM/PM format)
 - **Action** (Edit icon with tooltip)
